

Bus Pass Scheme in detail

The Undertaking has introduced RF-ID based Bus Passes for its esteemed commuters. The Bus Pass will be issued at the authorized Point of Sale (PoS) of the Undertaking. The details of the scheme are as under.

Distance-wise bus pass values (on Km basis)

Distance Slab(Kms)	Fare (₹)	Within Mumbai Municipal Limits (₹)	
		Monthly	Quarterly
2	8	360	1060
4	10	440	1320
6	14	620	1850
8	16	700	2100
10	18	800	2380
12	20	880	2640
14	22	970	2900
17	24	1050	3150
20	26	1150	3440

Distance is computed on following principles:

- If direct route exists between the origin and destination, then distance between these stops is considered for calculating the bus pass value.
- If more than one direct route exists between the origin and destination, minimum distance between these stops is considered for calculating the bus pass value.
- If direct route is not available between the origin and destination, then distance is calculated of the routes with one change-over point. In case of multiple routes with one change-over point, minimum distance with change-over is considered for calculating the bus pass value. In the event of non-availability of connection between origin and destination even with one change-over, distance based bus pass cannot be given. Under such circumstances, passengers are advised to opt for fixed amount pass.
- As the bus operation is being changed as per the demand, distance between origin and destinations may not be constant. Under such circumstances bus pass values shall also increase or decrease.
