

Road safety is a key concern area for all of us.

Safe driving today requires a higher level of confidence and competence, ever increasing number of vehicles on roads, lack of professionalism in driving and untrained drivers on road.

At the BES&T Training center, we do not just impart better driving skills but also try to inculcate safe driving culture through special theoretical sessions for behavioral training and road sense.

Program Structure:

This training program is a ready reckoner designed to cater to the needs of people who would like to polish their skill-sets.

This program also includes: **Theoretical** Sessions on Traffic Rules. **Technical know**-how of Diesel / CNG Vehicles. **Fuel efficiency** improving techniques, “Yoga”, “**Meditation**” and “Anti Tobacco Drive” workshops.

In a bid to address these issues, The BES&T Undertaking has launched Specialized Driving Training Program for Heavy Vehicle Drivers – Its initiative for promoting **safe driving**.

Pre-requisite

Learner's License or Permanent Heavy Vehicle License is must.

Total Duration

It can vary as per the requirement, @ **Rs.250/- Per Day**. Certificates will be issued after 21 days training considering the performance of the candidate.
